Howard Temperley Presentation on Digital Art

Howard gave an interesting, illustrated presentation with amusing anecdotes.

He discussed how reproductions have been used in various forms of 'The Arts'. Obviously printing books and music is used to open the work up to a larger audience, but with paintings we tend to only accept the original. The aura of an original painting is part of its merit. Digital art is challenging this premise as they can be reproduced perfectly any number of times, although limited, numbered prints should curtail this.

Howard then showed us some examples of the processes he uses to produce his works. Starting with several photographs, which he converts to monochrome before adjusting the images and adding other elements. He then reintroduces the colours he needs to produce the effect he wants.

Howard's work challenges many of us, in a very positive way.

Thank you Howard.

Hashim Akib

Hashim Akib joined us in June to demonstrate his work in acrylics. This was a very well attended event and members were enthralled by his free and easy (apparently) application of paint. He first demonstrated a portrait using a multitude of colours and then a landscape producing a dramatic scene of forest and lake with a few key strokes to reach a stunning final result. Members will no doubt be delighted to know that Hashim will be joining us again next June when he will be painting a street scene in acrylic.

Patchings Coach Trip Thursday 13th July

This was a very successful day out. Those of us who had never been to such an event were not disappointed. The time we spent there flew past as there was so much to take in, people to talk to and the collective passion for arts and crafts of all sorts was felt strongly. It was a long journey, but well worth it, we didn't have to drive !! A really memorable day out, all for £25! Bargain ! Many thanks to all who supported and many thanks to Eleanor Alison who co-ordinated and arranged the day.
