

Digital Knockout Evening

Four images, four rounds - can you stay in the game until Round 4 with your final images ending up with the highest number of votes from the members. This is a fun night that will only work with all our members participating in the evening's event.

You decide which image you want to show in each round with the club members voting in each round on the night. If your image receives enough votes then you get to stay in the game for the next round, if not, you're out from the following rounds.

It's up to you, put your best image forward in round 1, and make it to round 2 or leave it until one of the following rounds and hope you make it to that round. This is an "Open" event with no "Set Subject". So put in an "Ah image" to get the votes, or maybe an abstract image to get you to the next round.

You provide 4 images **DPI only** jpg format, colour profile sRGB, size 1600 x 1200 or 1200 x 1200 if a square or portrait image, maximum jpg quality setting. You don't need to add a canvas area around the image to get the correct size for our projector.

2 Title-Mxx.jpg ~ image to be shown in Round 2
