| CELLO BAG WITH SELF SEAL | 10 each  |

### For Customers with Printable Card Files

If you can provide print-ready PDFs, your only costs will be the numbers that are next to the card sizes in the above grid. We will review the files at no extra charge, and notify you if any changes need to be made. We also offer an editing service at a rate of £20 per hour, if there are issues that need resolving.

### Have digital images, but no print file?

To create a bespoke template for your designs, we charge a one-off fee of £10 per card size. Using your ideas and suggestions, this includes picking a font for the backs, arranging the relevant image boxes, and making sure the print-files are mistake-proof.

After this is done, further art-working will simply be a case of changing the images and, if necessary, the wording on the back. This is charged at a rate of £20 per hour. To give you an idea as to what this could end up costing, we can typically artwork around 20 different cards, from an existing template, in one hour.

### Existing Customers

If you have already had cards printed with us, needless to say you will already have templates in place and will only be eligible for the charges in the latter paragraph of the last section.

If you're simply re-ordering from pre-existing print files, then there will be no additional charges.

### Don't have digital files to send us?

If you require scanning/photography to create the images for your cards, there will be an additional charge of £20 per piece. \* \*\*

*\*Please note that these images will not necessarily be suitable for any other product except greetings cards. If you want an image created that will be suitable for all products, including Giclee prints, please see the 'Photography/Scanning of the Artwork' section in Services.*

*\*\*If you are also using us for Giclee printing, and have qualified for free scanning/photography, these files will also be suitable for card printing.*
