

laptops4 change

Help create a digital darkroom by donating your old laptop to enable project participants to process and edit their photographs.

Laptops4Change is an initiative by Eye4Change, a not-for-profit social enterprise using the power of photography to engage, educate and empower disadvantaged and marginalised children, young people and adults.

Through the provision of unique programmes that combine technology with creativity, we aim to stimulate social change and positive social inclusion.

Help give other people a voice - through the lens!

Please contact Eye4Change for more information and to arrange collection of your laptop.
