Individual and Small Group Photography Workshops

Our individual / small group workshops provide you with focused time on the creative and technical aspects of photography and are designed for those looking to get more from their camera than just the "auto" mode! Workshop locations are flexible within the Cotswolds or, if you are not sure of a suitable location, we will suggest various options for you to select from based on your photographic interests

Our photography workshops are built around:

- * Dedicated learning time with your tutor without the limitations of larger groups (our max. workshop size is 4 people)

- * Developing your confidence in taking control of your camera's functions and expanding your photographic skills and creativity through hands-on photography activities and tasks

- * The area(s) of photography that interest you most

- * Flexibility in the time and location of your workshop

- * Opportunity to review and discuss your photos in detail

Every workshop comes with 1 month's free follow up "distance learning" access to your tutor allowing you to ask further questions and receive feedback on your images
