Notes:

- For the second Image Review/Critique participants are to bring in **two** images. For each image bring a before editing shot and the post-production version. These images are to be of very different subjects. Again it's not a competition but an opportunity for members to have their images openly critiqued. Images are to be in digital format if possible.
- The Monmouth Town Tour categories will be released on a date to be decided (one of the 'blue' sessions). Members are to bring their images on a USB Memory stick to the club on tbc to present them. There will be five categories and each person is to submit one image only per category.
